

Information Security Policy

The Policy of IntuVigilance Limited is on a continuing basis to exercise due diligence to protect Information Systems from unauthorised access, use, disclosure, destruction, modification, disruption or distribution.

It is the responsibility of our Management Team to ensure all contractual, business, legal and regulatory requirements are considered alongside our information security obligations.

Through a process of identification and risk analysis, we are able to strengthen our commitment further. Our Management Team bears the responsibility for establishing and maintaining the Information Security Management System and undertakes to ensure its integrity is maintained through instruction and training of our personnel and that each employee has a proper understanding of what is required of them.

Equally, every employee has a personal responsibility to maintain this integrity.

Our Organisation has a Policy of Continuous Improvement and Objective setting in line with the ISO 27001:2013 International Standard.

Our Information Security Management System will be monitored regularly with our Management Team taking ultimate responsibility and performing a regular reporting function.

Signature of Senior Management:

Title: Director of QA
